

## POCKETHEALTH FOR PROVIDERS

# Auto-Routing

Enable automated, seamless record exchange across your partner sites and referring community.

**Create immediate efficiencies with secure workflow automation.**

Enable imaging transfers at scale

**Automate workflows** and reduce manual processes

**Save time** by getting immediate access to imaging records

**Consolidate image exchange** from a single endpoint if your facility is a spoke of multiple image exchange vendors

Auto-Routing is included as part of PocketHealth for Providers, and comes at **no added cost** to your organization

## PocketHealth: A Simple Solution Built for Scale

# Unlock the power of Auto-Routing with the PocketHealth Community Gateway

Enable friction-less image exchange at scale

## HOW IT WORKS

1

**Transfer imaging** records to a partner site through the PocketHealth Gateway at your site

2

Imaging records move into the **secure PocketHealth cloud**

3

PocketHealth Community Gateway at partner site **retrieves imaging** from the PocketHealth Cloud

4

Records are pushed to a **predetermined destination** based on previously set **business rules**

*\*The exchange is bidirectional, your site can receive imaging from partner sites as well*

## BENEFITS

- ✓ **Secure image transfer and retrieval** with little or no manual processing
- ✓ **A self-hosted model** that requires no maintenance from partner sites
- ✓ **Takes less than an hour to set up** with minimal tech resourcing required
