

PocketHealth Patient Sharing

Report Reader

Provide patient-friendly, easy-to-understand definitions to complex medical terms in radiology reports

Empower Patients. Drive Better Outcomes.

Reduce staff time spent clarifying report terminology to patients.

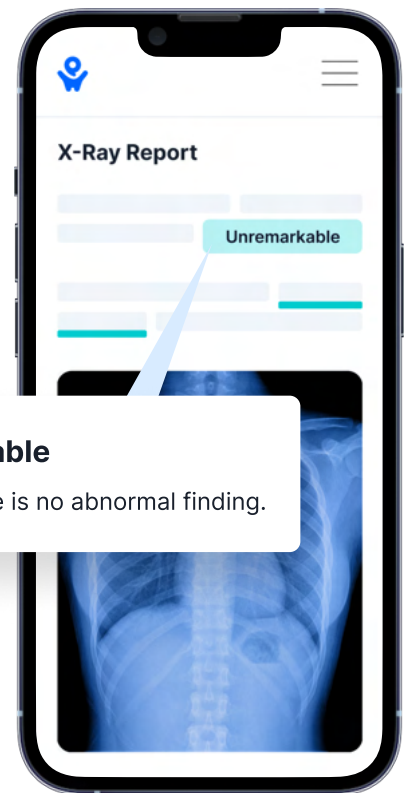

Patient-friendly reports are automatically generated without any impact to workflows.

Improve doctor-patient communication by empowering patients to have more informed conversations.

Provide a better patient experience by helping patients feel more confident in their own care.

Unremarkable

Normal. There is no abnormal finding.

“Report Reader allows me to discuss my health with my family doctor with more confidence and a better understanding of what is going on.”

— Helen, retired nurse with multiple health issues and PocketHealth user
